Question – Page replacement algorithm

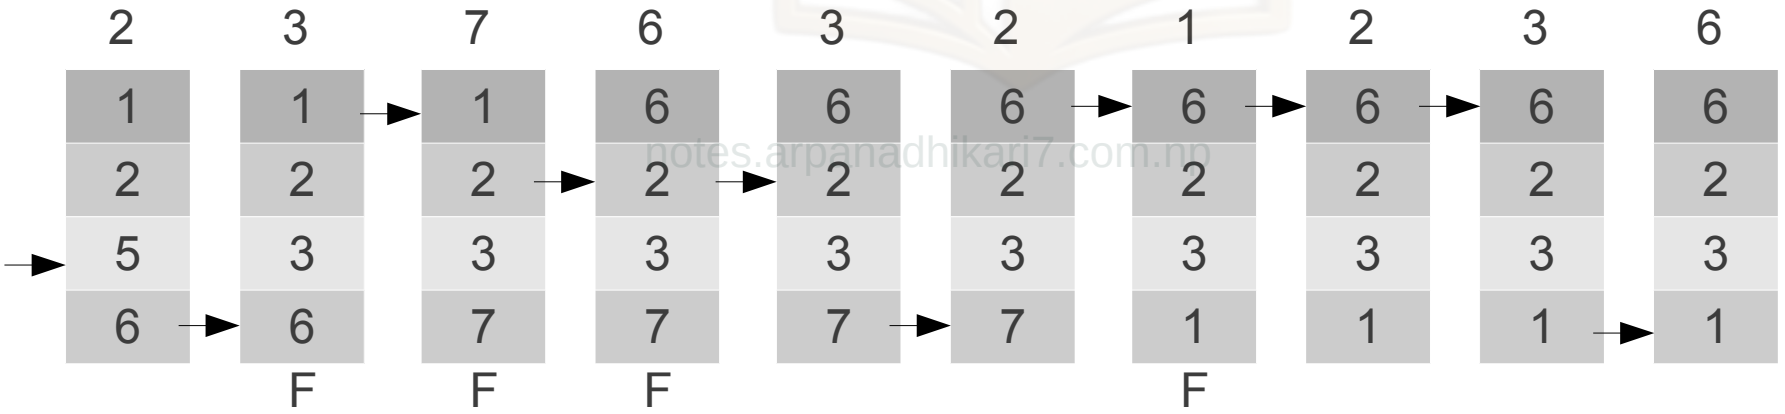

- Given page reference string:
  - 1,2,3,4,2,1,5,6,2,1,2,3,7,6,3,2,1,2,3,6
- Compare the number of page faults for LRU, FIFO and Optimal page replacement algorithm

Second Chance page Replacement Algorithm:

The following figure shows the behavior of the program in paging using the Second Chance page replacement policy:

notes.arpanadhikari7.com.np

Total Page fault=9

Fault rate/ratio= 9\18=0.50
